

Becky Yunk Walsh

My life dramatically changed for the better when a friend of mine told me about Taking It Lightly in 1989. I took my course in November, I think. I volunteered about 10 times after that before I moved away. I really wanted to do more. If I could have made a career at the Center I would have.

I came back to Wisconsin and volunteered for a Taking It Lightly weekend. It was like coming home. For 2025 I very much want to volunteer at every weekend they have and I would really like to be more involved. My husband has now taken Taking It Lightly so we can share in volunteering at the weekends together. He loves this work as well. I think he'll really be able to help me find and raise monies for the Starfish Foundation as well.
