

Biography
of
Dawn “Sky” Von Strobel

As an active board member I’m seeking for re-election for Secretary or any position that is deemed a good fit for me and my abilities that I have portrayed for the last 5 years. My Passion lies with helping and healing others in any way that I can. I am an adventurous, eccentric at times, motivated, deep thinking, spiritual, ambitious, courageous Pisces. With a Native American family and a nickname from my childhood and at birth I have become known to my Starfish: Healing Warrior Heart family as “Sky”.

I am a single mother of 2 kids with a girlfriend and another son. I have a BS from UWM and a MBA from Cardinal Stritch University. I served a first term in the US Army – reserves (National Guard) for 7 years before getting discharged for Don’T Ask Don’t Tell. That chapter of my life drives my focus and ambition now with my vivacious approach to serving the LGBT veteran community. I currently am serving my second career in the US Army and rewriting the ending to my past service.

I will always make myself available when possible to help the mission continue and to grow for the Starfish Foundation: Healing Warrior Hearts. In addition, continuing to work on myself so I can be the best contributor to the cause.
