

Mary Harvey

After learning about Healing Warrior Hearts from a previous graduate, Mary attended a retreat in early 2020. She found the weekend to be an immensely impactful, life-changing experience. Since then, Mary has volunteered as a staff member at 2 retreats and strongly believes in the mission of the Starfish Foundation and Healing Warrior Hearts.

Mary served in both the Michigan Army National Guard and the Wisconsin Air National Guard for a total of 12 years. The invaluable training Mary received while in the military led to some wonderful career opportunities. One exceptional experience was working as a weather observer at Gen Mitchell International Airport for a few years. Another was working at the Clement J Zablocki VA Medical Center in Milwaukee as a Medical Support Assistant. The military also afforded Mary the opportunity to meet her husband of 18 years, Don, a 20-year veteran and retiree of the Wisconsin Air National Guard.

Mary has been a member of the American Legion, Post #340, Hermansville, MI, for over 20 years.

Mary currently works as a Behavioral Health and EAP Consultant for a large healthcare insurer where she provides crisis services, employee assistance program (EAP) services, and insurance-based behavioral health resources and referrals. She is a Licensed Professional Counselor (LPC) and Clinical Substance Abuse Counselor (CSAC).

In her spare time, Mary enjoys spending time outside with her dogs, horses, and loved ones. Running, gardening, and camping are favorite activities.
