

**Biography
of
Mark F. Spindler**

Unlike many other past applicants for this board position, I do not have any experience in the military or connection to individuals with military experience, beyond the fact that my father was enlisted with the U.S. Army many years ago. I have spent the last 30 years running a successful certified public accounting practice and have advised clients that are talented in their trade of business but may lack experience in other aspects of business and related regulations that they come across in running their businesses. I have led a simple life with my wife, and we are extremely proud of the lives and successful careers of our children and their spouses. I became aware of the noble efforts of the Starfish Foundation and Healing Warrior Hearts and have served as treasurer and participated on the Board of Directors for the past two years. During that time, the bookkeeping system has been redesigned and incorporated with data collected under another software package that tracks and organizes donor information. I feel my experience in business over the past 35 years, including working with non-profit clients, I can be an asset to the efforts of the Starfish Foundation and Healing Warrior Hearts.
